

## Kronofer® INNOVATIVE THREE-LAYER IRON TABLETS WITH VITAMIN C

**Prevention and treatment of iron deficiency anaemia, increased iron requirement.**

- WHAT** *The solution for an effective iron supplementation.*
- WHEN** *To raise the physiological levels of iron.*
- WHY** *To treat iron deficiency and regain vitality.*

**TRIPLE LAYER TABLET**  
*For better absorption of ingredients.*

### DOSAGE

1 tablet /day preferably in the morning.

### COMPOSITION PER TABLET

#### “FAST” layer - release within 5 minutes

	mg/tablet
Iron bisglycinate	10

#### “NORMAL” layer - release within 45 minutes

	mg/tablet
Iron sulphate	10
Vitamin C	70

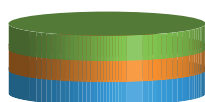

#### “RETARD” layer - release within 8 hours

	mg/tablet
Iron pyrophosphate	10

## Kronofer® INNOVATIVE THREE-LAYER IRON TABLETS WITH VITAMIN C

Three bioavailable sources of iron targeted at the best absorption site.

Innovative technology: Time and Site Controlled release.

### 3 PHASES tablet release

● **FERROUS BISGLYCINATE**, IRON-CHELATED AMINO ACIDS <sup>1</sup>  
**FAST layer:** Release in 5 minutes – release during the first tract of duodenum for maximum gastric tolerability, prompt release and quick absorption.

● **FERROUS SULPHATE**, A BIOAVAILABLE SOURCE OF IRON <sup>2</sup>  
**NORMAL layer:** Release in 45 minutes – release during the duodenal transit bypassing the gastric release, avoiding the most common problems on intolerance to iron sulphate.

● **VITAMIN C**  
To help increase iron absorption and strengthen the immune system.

● **FERRIC PYROPHOSPHATE**, pH INDEPENDENT, MICROENCAPSULATED IRON <sup>3</sup>  
**RETARD layer:** Release in 8 hours – release during the jejunal transit to increase absorption in the latter part of intestine.

## ENSURING BETTER PATIENT COMPLIANCE:

- High absorption
- High bioavailability
- Less gastric irritation
- Absence of unpleasant metallic taste
